

INGENIX®

Transaction Exchange—Providers Claims Exchange

Claims Exchange facilitates quicker payment, lowering your claim reimbursement turn-around time significantly

Quickly correct errant claims within a familiar HCFA format.

Executive Summary

Ingenix Claims Exchange is a convenient EDI claims management solution that offers providers an easy-to-use and secure method for electronically submitting insurance claims to virtually all government and commercial payers rapidly, accurately, and cost-effectively.

- One simple solution for virtually all payers
- Fast implementations, sometimes within days of signing up
- Payer reporting presented in a standardized format
- Compatible with most provider practice management applications
- Options for providers without practice management software

Overview

Envision faster, more transparent, and affordable health care interactions with payers. Transaction Exchange enables health care professionals to reduce administrative costs and optimize cash flow so they can refocus efforts to provide the highest level of health care services for their patients.

One solution to manage all claims

Ingenix Claims Exchange offers providers a robust solution designed to meet all of a provider's electronic claims transaction needs. Our HIPAA-compliant, state-of-the-art technology will streamline your workflow by providing one interface to assist you in managing your claims from start to finish with all payers.

Claim transmission options

Ingenix Claims Exchange provides you with an easy-to-use and flexible solution that allows you to transmit claims to more than 1,600 insurance carriers, managed care companies, and government payers with your choice of the following transmission options:

- Print Image Upload Module—
Web-based HCFA/CMS-1500 print image translator/editor
- Claims Entry Module—
Web-based HCFA/CMS-1500 print image entry/editor application
- File Upload Module—
Web-based secure file drop-off for NSF, 837P, and 837I file types

Faster reimbursement

Ingenix Claims Exchange features real-time editing capabilities that identify more than 96 percent of the most common errors that prevent claims from being paid with the first submission. The “cleaner” the claims you transmit and the quicker you get them out the door, the faster you get paid for your services.

Key Features

At Ingenix, we’re committed to empowering health care professionals by offering innovative time- and money-saving solutions and connections to one of the industry’s largest network of payers, partners, and EDI resources in addition to offering the following features:

- HIPAA-compliant claim format
- Increased accuracy by detection and correction of errors before you submit claims
- Powerful web-based reporting through a Messenger Center Reporting mailbox
- Flexibility to interface with your existing practice management system or to be created and edited electronically without practice management software
- Secure transmission methods
- Extensive payer data validations, with data testing managed by Ingenix
- Frequent requirement updates for all payers
- 24-hour access to on-line payer enrollments
- Ability to drop claim to paper and mail to payer not listed on electronic payer list.

Benefits

Ingenix strives to achieve state-of-the-art technology to help your practice achieve the following benefits:

- Centralized management of all claims
- Convenient all-payer solution
- Faster reimbursement through improved first time pass-through of claims
- No special hardware or software requirements
- Secure method for transmitting protected health information (PHI)
- Free technical and enrollment support
- Flat fee or volume-based pricing available
- Low implementation fee
